Profile

I have experience with high-level programming languages such as Python, Go, and Java, as well as SQL, HTML, CSS, and server-side technologies like Flask and Jinja. I'm an aspiring developer and cybersecurity analyst with a strong passion for exploring the intersection of coding and security, aiming to build and protect digital systems effectively.

Work Experience

Dishwasher, Busser, & Food prep at Emma Hearth & Market - Bridgman, MI (May 2024 - July 2024)

- Ensure all kitchen equipment is clean and sanitized.
- Clear tables of dirty dishes, glassware, and trash after guests finish eating.
- Assist cooks by preparing simple items like salads or garnishes.

Event Server at Classic Catering - Bridgman, MI (May 2023 - May 2024)

- Set up tables with linens, plates, glassware, and utensils before events.
- Clear plates, glasses, and trash from tables as guests finish eating.
- Assist with passing appetizers or serving buffet-style meals.

Education

Bridgman High School - Bridgman, MI (2021 - 2025)

- Varsity Tennis Player
- Honor Roll student

Skills

- Developed programming expertise over 8 years, starting at age 9
- Built and managed databases and web applications
- Aspiring analyst with a strong interest in securing digital systems and exploring threat mitigation
- Delivered professional service at events, enhancing teamwork, time management, and attention to detail
- Maintained high standards of cleanliness and organization in fast-paced kitchen environments
- Independently pursued programming since childhood
- Collaborated effectively with catering and kitchen teams, balancing multiple tasks under pressure
